## PRESS RELEASE

### GENERAL INFORMATION

AEGEAN YACHT is based in Bodrum, Turkey. The company was established in 1976 designing, building and selling turn key yachts to a distinguished international clientele. We work on a custom line principle to give our clients practically unlimited possibilities in realizing their ideas. We own 15.000 m<sup>2</sup> of seaside boatyard & build steel vessels up to 60 m. LOA with RINA class.

In June, 2007 we had launched the 50 meter classic three-masted schooner *GALILEO* designed by veteran naval architect Yavuz Mete. This superyacht became the biggest of her type in the history of Turkish boatbuilding and combines the classic fine lines of the schooners from the '30s of the last century with modern technologies. The steel hulled *GALILEO* has cherry interiors designed by Osman Aslandere.

She has two master cabins of 60 m<sup>2</sup> each and three VIP guest cabins. The 3 masts carry a sail area of approx. 1.100 m<sup>2</sup>.

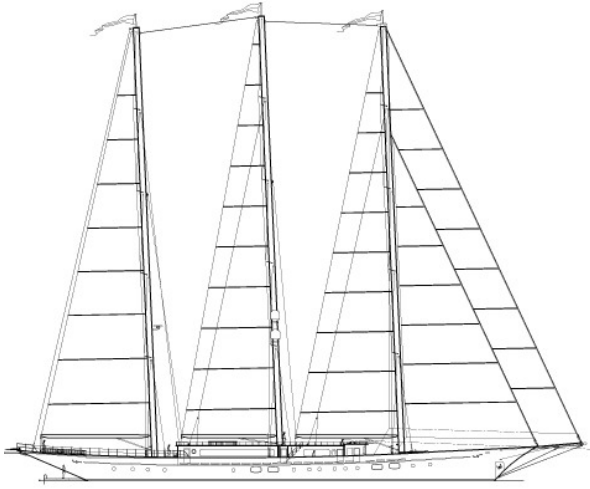

---

The modern 40 meter motor yacht is our new project for 2008. The elegant three deck motor yacht will have a steel hull and aluminium superstructure, there will be one master cabin and four cabins for the guests. With two CAT C30 marine diesel engines the yacht has long range cruising capabilities.

# AEGEAN YACHT

The launch of our advance-guard 73 m schooner is planned for the end of 2009. The beam of this modern classic unique sailing vessel will be 12 meters. The superyacht will be built according to the latest techniques and to be one of the thirty biggest sailing yachts of the world.

---

By summer, 2008 the company will be launching two twin motorsailers of 24 meters.

The new Aegean Sailors 24 M will be classic steel schooners with an elegant and everlasting design. They are full displacement yachts with unequalled seaworthiness and reliability.

Both of the twins will be CE certified.

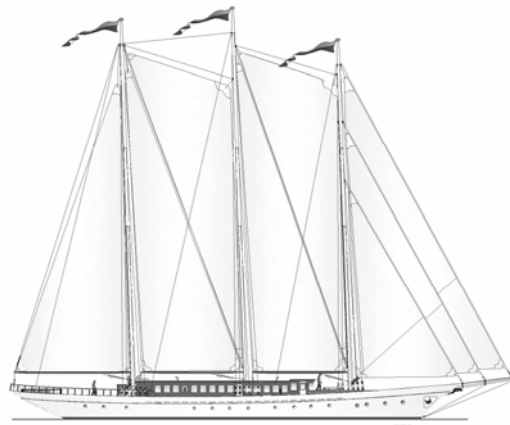

---

Another 50 meter fabulous yacht is planned for launch at the beginning of 2009.

This yacht will be the sistership of *GALILEO*, the megaschooner recognized for her style and workmanship.

The vessel shall be built under the survey of Classification society, RINA.

# AEGEAN YACHT

In May, 2007 we had launched the brand new schooner rigged classic sailing yacht *KAIROS* is scheduled for. With classic hull lines and sail plan, and mahogany interiors the yacht has a traditional ambience, combining a luxurious feeling with functionality. 35 meter *KAIROS* was built to REGISTER HOLLAND rules.

During the summer of 2006 another motor yacht was delivered to her happy owner. This 32 meter custom built yacht has a modern design with a spacious interior which echoes with taste and refinement. The salon is equipped with a full entertainment system and luxurious furniture. Meals are served either indoors around the formal dining table or on the aft decks, in a more casual setting.

The master stateroom is extremely spacious but cosy, and each of the four guest staterooms is also comfortably furnished. For this season the yacht is available for charter in the Aegean and Mediterranean.

# AEGEAN YACHT

At the same time there was a launch of the 22,50 meter twin motorsailers. One of them called *FAYE* was immediately transferred by her owner to Dubai. Another one is waiting for her future owner and meanwhile is being used for the charter by AY.

*ARAMINTA* accommodates 8 passengers in two master and two double individually air-conditioned cabins all with en-suite toilets and hydro-massage showers. The spacious salon has mahogany furniture, a bar and table for 10 people. *ARAMINTA* is a full displacement yacht with unequalled seaworthiness and reliability and everlasting design.

---

*SPIRIT OF THE EAST* is another fabulous steel yacht that was launched in 2006. This 26.60 meter ketch has the ability to make fast passages under sail or power .

“The yacht has a long slim hull with a tight turn of the bilge to enhance the transverse stability and sail carrying power without requiring excessively deep draught. The keel and rudder are aerofoil sections for good efficiency and the rudder is a partially-balanced spade type providing good control and manoeuvrability” (<http://www.yacht-designer.co.uk/page61.html>). The yacht has six cabins for 12 charter guests. *SPIRIT OF THE EAST* has been nominated for Best Sailing Yacht in her range delivered in 2006.

# AEGEAN YACHT

The classic motor yacht of 34 meter was launched in October, 2006. She is equipped with 2x450 HP engines and accommodates 12 guests in six double cabins. The yacht has a steel hull and steel superstructure, and all interior walls and ceilings in accommodation spaces subdivided by SOLAS fireproof panels as all the yachts built by AY.

---

AEGEAN YACHT takes great pride in its design capability and style, experienced workmanship and engineering. Employing over 150 people the yard is conveniently located to a nearby private marina and Bodrum International Airport.

So far AEGEAN YACHT has completed more than 40 yachts from 16 to 50 meters LOA, some of which have been exported to Australia, Caribbean, Thailand, Egypt, Eritrea, Maldives, Italy, France, Germany, Portugal, Spain, Croatia, Greece, Canary Islands, Malta, Djibouti, United Arab Emirates, Russia and many other world destinations.

We are also one of the most integrated yacht brokerage companies in Turkey. We buy, sell, refit & manage a substantial number of yachts.
